EXECUTIVE PROFILE

Technology and operations leader with 20+ years of experience driving large-scale cloud, telecom, and data platform transformations across Fortune 50 enterprises and high-growth organizations. Proven track record leading cross-functional teams of 20+ and managing multi-million-dollar portfolios delivering mission-critical platforms, enterprise cloud solutions, and data-driven business capabilities.

Recognized for aligning engineering, product, and business strategy to achieve measurable outcomes—including revenue growth, operational efficiency, and scalable architecture modernization. Trusted leader in complex environments spanning M&A integration, hyperscale cloud adoption, and mission-critical infrastructure delivery.

CORE LEADERSHIP CAPABILITIES

- Cloud & Platform Strategy (Azure, Hybrid Cloud, Telco)
- Enterprise Program & Portfolio Leadership
- Product & Data Platform Transformation
- Mergers & Acquisitions Integration
- DevOps & Agile at Scale
- Financial & Operational Optimization (FinOps)
- Executive Stakeholder Alignment
- Organizational Leadership & Team Development

PROFESSIONAL EXPERIENCE

Focused Consulting, Inc.

Senior IT Product Manager | 2023 – Present

- Led data technology and operational transformation for a high-growth insurance company navigating mergers, acquisitions, and IPO readiness
- Architected enterprise reporting platform integrating 12+ data systems, enabling executive-level decision-making across 127 products via real-time analytics
- Established cross-functional “Scrum of Scrums” governance model, improving delivery transparency, accountability, and cross-team coordination
- Designed cloud-based enterprise reporting solution leveraging Azure and Power BI, driving standardized KPI visibility and strategic planning capability
- Defined resiliency and disaster recovery architecture, optimizing cost-to-risk balance while ensuring business continuity for critical systems

Microsoft

Senior Technical Manager | 2021 – 2023

- Led a 21-person cross-functional engineering and solution architecture team delivering Azure Nexus, a next-generation hybrid cloud platform for global telecom operators
- Directed full lifecycle delivery across product, DevOps, and infrastructure automation, enabling mission-critical workloads at carrier scale
- Managed multi-team portfolio execution across 10 development teams, aligning backlog, CI/CD pipelines, and production deployment cadence
- Translated strategic platform capabilities into prioritized MVP delivery aligned with customer requirements and contractual outcomes
- Drove cross-organizational collaboration across security, performance, and observability functions to ensure enterprise-grade platform delivery

AT&T

Associate Director, Cloud Platform Design | 2020 – 2021

- Built and led cloud platform design organization supporting AT&T's Network Cloud, defining structure, roles, and operating model
- Developed enterprise DevOps methodology and delivery framework, improving traceability from roadmap to execution
- Led strategic integration planning during Microsoft acquisition, ensuring continuity and rapid operational alignment
- Partnered across platform engineering domains to expand capabilities across security, reliability, and CI/CD pipelines
- Drove hyperscaler (Azure) integration strategy reducing hybrid cloud cost and operational complexity

Program Manager, Network Cloud | 2014 – 2020

- Directed delivery of AT&T Network Cloud 2.0 supporting large-scale, containerized telecom workloads (Kubernetes/OpenStack)
- Managed \$30M+ portfolio spanning 6 programs and 350+ features, coordinating delivery across multiple engineering and product teams
- Led cross-organizational alignment for production cloud infrastructure, including data center deployment and network architecture
- Enabled scalability improvements supporting 50M+ subscriber capacity expansion for VoLTE services
- Delivered federal cloud capabilities meeting government compliance and procurement requirements

United States Air Force

Operations Manager (Officer in Charge) | 2010 – 2014

- Led 205 personnel across 9 specialties managing \$1.1B in aircraft assets supporting mission-critical global operations
- Directed high-stakes operational missions with 100% mission effectiveness, including rapid deployment and recovery operations
- Achieved industry-leading maintenance performance metrics, including near-zero discrepancy rates and improved fleet readiness
- Scaled operations through rapid integration of new aircraft, personnel, and infrastructure

Program Manager, Acquisitions Officer | 2007 – 2010

- Managed multi-billion-dollar aircraft modernization programs supporting defense operations
- Influenced \$906M congressional funding approval and identified \$929M cost offsets across defense programs
- Led cross-functional teams managing \$11.9B in aircraft system upgrades and modernization efforts
- Served as Executive Officer to senior leadership, supporting strategic planning and command-level operations

EDUCATION & CREDENTIALS

M.A., Communications Management – Webster University

B.A., Radio, TV & Digital Media – Southern Illinois University

Certifications: PMP | Certified ScrumMaster (CSM) | Azure Fundamentals

SELECT ACHIEVEMENTS

- Delivered \$30M+ cloud platform portfolio at AT&T supporting enterprise-scale telecom infrastructure
- Enabled 50M+ subscriber capacity growth for VoLTE networks
- Built and led high-performing teams across Fortune 50 and startup environments
- Architected enterprise data platform supporting executive visibility across 127 products
- Led mission-critical global operations with 100% effectiveness in high-risk environments
